

# Iskander Sitdikov

A researcher, mathematician, and software engineer

	Kuala Lumpur, Malaysia
	+995 511 234 698
	thoughteer@proton.me
	thoughteer.eth
	github.com/thoughteer

## Education

2013–2015	<b>Ph. D. degree (unfinished)</b> , CMC MSU <sup>1</sup> , Moscow, Russia												
	<table><tr><td>affiliation</td><td>Laboratory of Mathematical Methods of Image Processing</td></tr><tr><td>supervisor</td><td>Prof. Andrey S. Krylov</td></tr></table>	affiliation	Laboratory of Mathematical Methods of Image Processing	supervisor	Prof. Andrey S. Krylov								
affiliation	Laboratory of Mathematical Methods of Image Processing												
supervisor	Prof. Andrey S. Krylov												
2008–2013	<b>Specialist (M. S.) degree</b> , CMC MSU <sup>1</sup> , Moscow, Russia												
	<table><tr><td>field of study</td><td>applied mathematics and computer science</td></tr><tr><td>specialization</td><td>mathematical physics</td></tr><tr><td>affiliation</td><td>Laboratory of Mathematical Methods of Image Processing</td></tr><tr><td>supervisor</td><td>Prof. Andrey S. Krylov</td></tr><tr><td>GPA</td><td>5.0 of 5</td></tr><tr><td>thesis</td><td>Development of combined image enhancement methods</td></tr></table>	field of study	applied mathematics and computer science	specialization	mathematical physics	affiliation	Laboratory of Mathematical Methods of Image Processing	supervisor	Prof. Andrey S. Krylov	GPA	5.0 of 5	thesis	Development of combined image enhancement methods
field of study	applied mathematics and computer science												
specialization	mathematical physics												
affiliation	Laboratory of Mathematical Methods of Image Processing												
supervisor	Prof. Andrey S. Krylov												
GPA	5.0 of 5												
thesis	Development of combined image enhancement methods												
1998–2008	<b>Secondary general education</b> , Gymnasium №26, Naberezhnye Chelny, Russia												
	<table><tr><td>focus</td><td>mathematics and physics</td></tr><tr><td>GPA</td><td>5.0 of 5</td></tr></table>	focus	mathematics and physics	GPA	5.0 of 5								
focus	mathematics and physics												
GPA	5.0 of 5												

## Skills

programming languages	Golang, Python, TypeScript, Java, C/C++, Bash, SQL, Matlab, Factor
cloud infrastructure	AWS, Kubernetes, Docker, Helm, ArgoCD, HashiCorp Vault
data processing	Apache Kafka, Apache Spark, Apache Hadoop/Hive, Grafana, Prometheus
databases	Amazon DocumentDB, Amazon Keyspaces, PostgreSQL, Redis, RediSearch, Clickhouse, MongoDB, YDB, Apache Cassandra, Apache HBase
libraries	React, Effector, NumPy, SciPy, CUDA, OpenGL
tools	Visual Studio Code, Git, GitHub Actions, GitHub Copilot, Vim, IntelliJ IDEA
operating systems	macOS (over 8 years), Fedora (over 1 years), Debian (over 15 years)

## Spoken Languages

English	Proficient (C2)
Russian	Native

## Work Experience

since 07/2021	<b>Zerion</b> Responsible for the infrastructure of DeFi portfolio tracking platform <a href="#">zerion.io</a> . <ul style="list-style-type: none"><li>Designing and maintaining real-time blockchain data processing pipelines for various ecosystems (Ethereum, Solana)</li><li>Developing internal (gRPC) and public (REST) high-load API services</li><li>Implementing integrations with major DeFi protocols</li><li>Leading development of Zerion DNA and Zerion Rewards projects</li><li>Created a shared Golang library and established best practices and development guidelines for the team</li></ul> <table><tr><td>location</td><td>remotely</td></tr><tr><td>position</td><td>tech lead</td></tr></table>	location	remotely	position	tech lead		
location	remotely						
position	tech lead						
10/2018–06/2021	<b>Joom</b> Responsible for the recommendation engine for e-commerce platform <a href="#">joom.com</a> . <ul style="list-style-type: none"><li>Designed and implemented data processing pipelines for marketplace analytics and user behavior analysis</li><li>Improved recommendation feed quality through machine learning algorithms and A/B testing frameworks</li><li>Maintained high-load web services for real-time recommendations serving millions of users</li><li>Led infrastructure migration from AWS EC2 to Docker and Kubernetes for improved scalability</li><li>Contributed to Joom Ads auction mechanics development for the merchant advertising platform</li></ul> <table><tr><td>location</td><td>Moscow, Russia</td></tr><tr><td>position</td><td>senior machine learning engineer</td></tr></table>	location	Moscow, Russia	position	senior machine learning engineer		
location	Moscow, Russia						
position	senior machine learning engineer						
05/2015–09/2018	<b>Yandex</b> Responsible for the recommendation engine for e-commerce platform <a href="#">market.yandex.ru</a> . <ul style="list-style-type: none"><li>Built comprehensive offline data processing systems for marketplace transaction and user behavior data</li><li>Designed historical user data collection system for personalized recommendations and analytics</li><li>Developed and maintained A/B testing framework for recommendation algorithm evaluation</li><li>Led migration from Hive to YDB for improved data processing performance and reliability</li></ul> <table><tr><td>location</td><td>Moscow, Russia</td></tr><tr><td>position</td><td>machine learning engineer</td></tr></table>	location	Moscow, Russia	position	machine learning engineer		
location	Moscow, Russia						
position	machine learning engineer						
10/2014–12/2014	<b>Samsung</b> Responsible for image super-resolution project implementation. <ul style="list-style-type: none"><li>Worked on various motion estimation algorithms for video enhancement</li></ul> <table><tr><td>location</td><td>Moscow, Russia</td></tr><tr><td>position</td><td>software engineer</td></tr></table>	location	Moscow, Russia	position	software engineer		
location	Moscow, Russia						
position	software engineer						
07/2014–08/2014	<b>Space Research Institute</b> Responsible for satellite auroral imaging research. <ul style="list-style-type: none"><li>Developed efficient numerical methods for large-scale ground and atmospheric scattering compensation</li><li>Prototyped algorithms in Matlab and implemented production versions in Python</li></ul> <table><tr><td>location</td><td>Moscow, Russia</td></tr><tr><td>position</td><td>research intern</td></tr></table>	location	Moscow, Russia	position	research intern		
location	Moscow, Russia						
position	research intern						
07/2011–09/2011	<b>ADSC<sup>2</sup></b>						
01/2012–02/2012	Responsible for computer vision and GPU computing research projects.						
07/2012–10/2012	<ul style="list-style-type: none"><li>Implemented real-time stereo matching algorithms optimized for GPU architecture</li><li>Developed Kinect depth map enhancement algorithms using GPU parallel processing</li><li>Researched edge-aware recursive image filtering techniques for real-time applications</li></ul> <table><tr><td>location</td><td>Singapore</td></tr><tr><td>position</td><td>junior research assistant</td></tr><tr><td>supervisors</td><td>Dr. Dongbo Min, Dr. Kyle Rupnow</td></tr></table>	location	Singapore	position	junior research assistant	supervisors	Dr. Dongbo Min, Dr. Kyle Rupnow
location	Singapore						
position	junior research assistant						
supervisors	Dr. Dongbo Min, Dr. Kyle Rupnow
